Step into your Power and Design Your Life for Maximum Success

Personal Leadership Transformation with NLP

June 2-5 Dublin, Ireland

What if the secret to anything you wanted was locked inside your head?

Wouldn't you want the key?

More confidence, more money, more energy and passion. These can all be yours.

Best of all, it's not as hard as you might think. (Even if you feel intimidated or have no idea how to start.)

Allow me to share a quick story about Michael.

Michael attended one my seminars because he was frustrated with the way his career was going.

He worked 12-14 hour days in his sales career, but no matter how much he tried, he was never the top sales guy. In fact, just before he attended my seminar, he'd lost a big deal and felt like his job was on the line.

As if that wasn't bad enough, his marriage felt stalled. He and his wife seemed to argue more than laugh these days and he didn't know how to talk with her anymore since everything he said seemed to upset her.

Michael felt stuck. Kind of like he was on a treadmill going nowhere...

...Maybe you've felt that way too...

There IS More to Life

Than simply going through the motions of your days and trying to keep ALL the balls in air and praying that nothing hits the ground and splinters like fine china on a cement sidewalk.

If you HAVE you felt that way, you know that sense of quiet desperation.

That feeling that you want MORE out of life, but you don't know how to attain it.

That's how Michael felt and when he saw the announcement for this seminar, he signed up immediately.

Within two hours of the first day, he felt his shoulders relax for the first time in years.

In fact, his head felt clearer and he could SEE where he could have control over certain areas of his life. Best of all, he learned a specific communication technique that helped him close the biggest deal of his career so far within a week of completing the seminar.

Over the next few months, the world seemed to have shifted in his favor. He and his wife were having fun again, he received a promotion and best of all, he felt full of joy and optimism.

"Never knew that I was capable of evoking positive images, sounds and feelings I will certainly use this to create a good mood in myself. Your stories and practical exercises have touched me and I will open the door to the future feeling happy and sunny. Thank you."

Suzanne Knippenberg

At this empowering event, you'll uncover the **hidden levers** of:

- Control. When you control THESE, you'll automatically feel calmer...all the time. Your family and friends will wonder what your secret is...and you can share...or not...you'll be amazed at how simple it is.
- Personal Limits. How strong are they? What do they mean? Do you know FOR SURE where yours are? We'll address so-called "limitations" within the first morning of the training so that you can be aware of yours.
- Energy. Managing your energy is a huge part of success. Once you know what you can safely say "yes" and "no" to...you'll know how to protect yours so you can accomplish the things that matter...
- Passion. Do you want more passion in your relationship? You'll discover how to REKINDLE PASSION and grow it on Day 2. You'll be the envy of your friends once you uncover this simple secret.
- Depression/Anxiety. If you deal with these, you're not alone. 33% of the world is diagnosed with one or both...With NLP, you'll be equipped with the tools to help you stay in your power so that your focus is positive and effective rather than give in to these vile demons.
- Shame. Do you feel it? You may not even know until you take this simple test that will open your eyes.
- Self-Image. How you see yourself is reflected in the choices you make and your confidence levels. You'll immediately be able to hone in on yours and discover the techniques to make yours stronger.
- Negative Beliefs do NOT have to run your life. It's a matter of developing your self-awareness and recognizing the truth behind negativity...this is key in OWNING your power.
- Mental Blocks – everyone has blind spots based on their own lives and experiences and once you know what they are, you can move past them to live a life rich with beautiful experiences and the KNOWLEDGE that YOU are in control. We'll cover ways to recognize these and render them powerless.

The power of NLP or “Neuro-linguistic Programming,” is that it unlocks hidden confidence chambers inside your head. You no longer feel “stuck” or like you’re playing “small” in life because you’ve gotten hip to the way your brain works.

In fact, NLP has been called a “user’s manual” for your brain. Learning these communication techniques help you master your mental game so that you feel confident in any situation.

You’ll feel purposeful because you’ll have a clear sense of your goal and what matters in life.

"The two-day training course on NLP and self-confidence gave me the skills and possibility to have the desired feelings and state of mind on any given moment. The possibilities are endless!"
Arnt van Helden

Developed in the 1970’s by Richard Bandler and John Grinder it’s the brainchild of a mathematician and a linguist who wanted to create a breakthrough methodology for therapeutic trainings.

By combining their knowledge, they arrived at what’s known today as NLP. Nowadays, top business leaders at Fortune 500 companies and sales teams study these techniques to improve their communication and to keep themselves in top performance.

Both Tony Robbins and Oprah are reported to be users of NLP. Jack Canfield, the co-author of the popular *Chicken Soup* series tout its merits.

I think you’ll agree that these are top performers in their fields.

You’ll probably also agree that they have a charisma that draws people to them and helps them accomplish their goals.

Would you like to develop magnetic charisma in your own life? That “special something” that attracts people to you and wants them to help you?

It all starts with mental mastery

At the heart of NLP is the ability to identify self-limiting beliefs and behaviors. Once you’re aware of these, you can create an alternative for yourself. Essentially, you’re “reprogramming” your brain so that you can achieve the things you want out of life. ..like reaching your goals, enjoying meaningful relationships, and a greater sense of purpose.

When you attend this 4-day training, you will have the opportunity to claim **mastery over your mind** just like the top CEO's and sales leaders in the world.

My name is Martijn Groenendal and I have been a NLP Trainer (certified by Richard Bandler – the co-founder of NLP) since 1999. As the founder of the NLP Life Academy, I've helped hundreds of people transform their lives. Some of them attend my programs with a vague feeling of disappointment with life while others are seeking a major change.

No matter what your reason, you're sure to feel inspired by "what's possible" during and after our time together.

If you're ready to tap into your greatness, I invite you to join us for 4-days in Dublin.

Day 3 –

Day 4 --

The power of NLP is that it helps you master your moods, communicate effectively with others and kick unwanted habits easily.

Smokers suddenly don't like the taste of cigarettes, emotional eaters find they crave health snacks instead of junk food, you may even find your stamina is greater for work and your productivity soars.

As a practitioner and trainer, I combine deep transformational work to give you the exact insights where you need to change so that you become instantly the leader in your own life that you want to be.

Once you understand these principles, you will always own your power and feel confident no matter the situation.

Plus, if you've ever wanted to visit Ireland, this makes a perfect opportunity.

You have two options right now.

Option 1: Continue your life as is and hope something will change for the better. You can read another motivational book or listen to another tape and hope it "sticks." It's better than nothing but it's not likely to help you make quantum leaps quickly.

Option 2: Come to beautiful Dublin for the Transformational Leadership event in June. You'll gain the skills you need to make a major, positive impact on your life and the lives around you for the second half of 2017 and years to come.

Are you ready to invest in your future?

There are 20 seats.

To reserve yours, click the green button below.

If, by the end of the first day, you decide personal transformation isn't for you, you will receive a full-refund for the seminar price.

That's highly unlikely though.

Once you have a taste of the freedom and empowerment that comes from experiencing the ability to shift your thoughts and regain your confidence..in seconds....you're sure to want to claim this mental mastery!
